EQUITY TRANSITION UPDATE

- All trading has been implemented related to two new Emerging Market (EM) equity mandates and rebalancing activity within SCERS' international developed large cap equity mandates.
- SCERS funded the two new EM equity mandates with ARGA Investment Management and Oaktree on February 1st for \$190 million each, and funds were sent directly to the managers.
- To fund the mandates, Staff directed transition manager State Street Global Markets (SSGM) to sell \$185 million in an EM ETF that was being used as an interim solution for terminated manager Mondrian Investment Partners.
 - The trade was executed in line with expectations.
- SSGM was also utilized to sell ~\$225 million in equities for three existing international developed large cap equity mandates for rebalance purposes, and to help fund the EM mandates.
 - The total cost of these sales was 5.73 bps, which came in under the pre-trade estimated cost of 9.93 bps.

INTERNATIONAL SMALL CAP EQUITY MANAGER SEARCH UPDATE

- At the September 2022 meeting, the Board authorized Staff and general investment consultant Verus to conduct a manager search in the international developed small cap value equity space, to find a replacement investment manager for terminated manager Mondrian Investment Partners.
- Over the past few months, Staff has worked with Verus and identified a select list of four manager candidates.
- These managers were interviewed by Staff and Verus virtually in late January, and Senior Investment Officer Brian Miller also performed due diligence at a few of the manager's offices in early February.
- Staff is targeting the March or April meeting to present a recommendation and have the chosen manager present to the Board.

MARCH MEETING PREVIEW

- At the March meeting, Verus and Staff plan to present an education session on the topic of ESG (Environmental, Social, Governance).
- The objective of the presentation is to:
 - Provide some background on ESG.
 - Approaches that institutional investors take to ESG, from incorporating into policy, to using it as part of the process of evaluating investment managers.
 - SCERS' approach and how the portfolio is currently exposed to ESG factors and considerations.
