

ANNUAL FINANCIAL REPORT SUMMARY

for THE FISCAL YEAR ENDED JUNE 30, 2010 | Sacramento, California

SACRAMENTO COUNTY
EMPLOYEES'
RETIREMENT SYSTEM

MESSAGE TO SCERS MEMBERS

As Chief Executive Officer of the Sacramento County Employees' Retirement System ('SCERS' or 'the System'), I am pleased to present the SCERS Annual Financial Report Summary for the fiscal year ended June 30, 2010. This report provides information on the financial status of your retirement system and is based on the Comprehensive Annual Financial Report ('CAFR') prepared by the System each year. The full CAFR for the fiscal years ended June 30, 2010 and 2009, and other important information about your retirement system, can be found on the SCERS website, www.scers.org.

SCERS' investment performance for the fiscal year ended June 30, 2010 improved dramatically from the negative levels of 2008-2009, with SCERS' total fund returning 13.5%, net of fees, for the period. This resulted in an increase of more than \$573 million in SCERS' net assets compared to the previous fiscal year, illustrating how, as a long term investor, SCERS is able to capitalize on the investment opportunities that often follow a market downturn. The strong investment returns and increase in assets also illustrates SCERS' capacity for recovering from disruptions in the financial markets.

On a cautionary note, while the positive investment performance for the fiscal year was a welcome development, the overall health of the underlying economy remains less clear. The duration and strength of economic recovery will be the most important factor in the pace at which SCERS rebounds from the substantial market downturn.

That being said, SCERS continues to be in strong financial condition, with an 87% funded ratio. SCERS also continues to maintain a strong, positive cash flow, with income from employer and employee contributions and investments comfortably in excess of benefit payments and expenses. Accordingly, irrespective of the pace of economic recovery, because of the way SCERS is designed and operated, SCERS' benefits will remain secure and be paid as promised.

I hope that you find the information in this report helpful in assessing the financial health of your retirement system. I also invite you to review the extensive array of financial, actuarial and benefit information available on the SCERS website, as well as the news items and educational materials. I believe you will see that SCERS operates in an open and transparent manner designed to let our stakeholders confirm that we carry out our responsibilities in managing the retirement system in accordance with the highest fiduciary and professional standards.

On behalf of the SCERS Board of Retirement, and the rest of the staff at SCERS, we look forward to continuing to address your retirement questions and needs.

Respectfully Submitted,

Richard Stensrud
Chief Executive Officer

FINANCIAL STATEMENTS

Fiduciary Net Assets

SCERS had \$4.981 billion in net assets held in trust for pension benefits as of June 30, 2010. This represented an increase of \$573.1 million or 13.0% from the \$4.408 billion in net assets as of June 30, 2009. The net investment gain for the fiscal year ended June 30, 2010 was due to the recovery in the U.S. and global equity and fixed income markets following the 2008 global credit crisis. All of the net assets were available to meet SCERS' obligations to plan participants and beneficiaries.

Additions to Net Assets

Financing for the benefits SCERS provides to its participants comes primarily from income on investments and the retirement contributions made by employers and employees. For the fiscal year ended June 30, 2010, the total additions were \$837.0 million. For the fiscal year ended June 30, 2009, the total additions were \$(1.086) billion.

Net investment gains/(losses) were \$617.5 million and \$(1,318.4) million for the fiscal years ended June 30, 2010 and 2009, respectively.

For the years ended June 30, 2010 and 2009, the combined employer and employee contributions were \$219.5 million and \$231.6 million, respectively. The decreases in employer and employee contributions in fiscal year 2010 were primarily due to the decrease in total number of active members and the corresponding decrease in total annual compensation as a result of layoffs.

2001	33.0	40.3	(207.6)	(134.3)

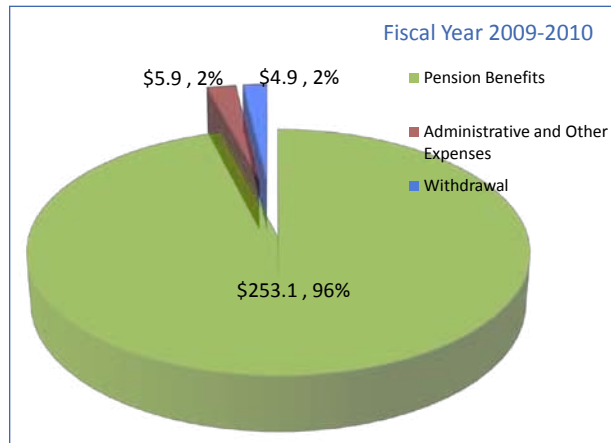

Financing for the benefits SCERS provides to its participants comes primarily from income on investments and the retirement contributions made by employers and employees.

* In fiscal year 2004-2005, employer contributions included \$420.0 and \$10.5 in proceeds from pension obligation bonds (POB) issued by the County of Sacramento and Sacramento Metropolitan Fire District, respectively.

Deductions from Net Assets

(Dollar Amounts Expressed in Millions)

Year Ended June 30:	Pension Benefits	Administrative and Other Expenses	Withdrawal	Total
2010	\$253.1	\$5.9	\$4.9	\$263.9
2009	232.3	6.0	3.3	241.6
2008	214.9	5.9	3.2	224.0
2007	196.0	5.8	4.4	206.2
2006	178.4	5.1	4.6	188.1
2005	162.5	5.3	3.5	171.3
2004	153.8	6.7	4.0	164.5

2002	113.5	5.5	3.5	122.5
2001	105.4	3.8	3.6	112.8

Note: For the years ended June 30, 2004 and 2003, Administrative and Other Expenses include retroactive benefits of \$0.8 and \$25.9, respectively, related to the Ventura litigation settlement.

SCERS' assets were primarily used for the payment of benefits to members and beneficiaries, contribution refunds, and the cost of administering the retirement system. For the years ended June 30, 2010 and 2009, total deductions were \$263.9 million and \$241.6 million, respectively. The primary reasons for the increase in deductions were higher monthly benefit payments resulting from the annual cost-of-living adjustment, a net increase in retirees, and an increase in contribution refunds to terminated employees as a result of layoffs.

Reserves

SCERS' reserves are established in accordance with requirements of the County Employees' Retirement Law of 1937, after satisfying administrative and investment expenses. For actuarial purposes, SCERS utilizes a multi-year smoothing methodology under which a portion of the market gains and losses is recognized and allocated to the reserves through interest crediting. Gains or losses incurred prior to July 1, 2008 will be amortized over a five-year period. Gains or losses incurred after July 1, 2008 will be amortized over a seven-year period. The difference between market value of assets (equivalent to fiduciary net assets) and the smoothed actuarial value of assets is tracked in the market stabilization reserves. As of June 30, 2010 and 2009, the market stabilization reserves were \$(1,236.0) million and \$(1,322.4) million, respectively.

INVESTMENT PERFORMANCE

Asset Allocation as of June 30, 2010

SCERS maintains an overall investment policy designed to achieve a diversified investment portfolio. An integral part of the investment policy is the strategic asset allocation, which is designed to provide an optimal mix of asset classes with return expectations that correspond to expected liabilities. The strategic asset allocation also emphasizes maximum diversification of the portfolio to protect the System from the possibility that a particular asset class may experience poor investment performance in a given period.

Net Investment Returns Fiscal Year Ended June 30

For the fiscal year ended June 30, 2010, SCERS' investments provided a 13.5% gain (net of fees) compared to a 22.1% loss (net of fees) for the fiscal year ended June 30, 2009.

The net investment gain for the fiscal year ended June 30, 2010 was due to the recovery in the U.S. and global equity and fixed income markets following the 2008 global credit crisis.

The overriding investment philosophy followed by SCERS continues to center on the principle of diversification and the search for long-term value. For the latest information, review the SCERS website, www.scers.org.

ACTUARIAL SUMMARY

Actuarial Funding Status

SCERS' overall funding objective is to meet long-term benefit promises by maintaining a well-funded plan status through a combination of superior investment returns and employer and employee contributions which are both minimized and maintained as level as possible for each generation of active members. SCERS retains an independent actuarial firm, The Segal Company, to perform annual actuarial valuation to monitor the funding status of the System.

An actuarial valuation is similar to an inventory process. On the valuation date, the assets available for the payment of retirement benefits are appraised. These assets are compared with the actuarial liabilities, which are the actuarial present value of all future benefits expected to be paid with respect to each member. The purpose of the valuation is to determine what future contributions will be needed by the members and participating employers to pay all expected future benefits. To help reduce year-to-year volatility in employer contribution rates due to fluctuations in investment performance, SCERS smooths the calculation of actuarial assets over a multi-year period. Unrecognized return established before July 1, 2008 is recognized over a five-year period. Unrecognized return established after July 1, 2008 is recognized over a seven-year period. This not only stabilizes contribution rates, but also improves the ability of an employer to plan for possible future increases or decreases in costs. As of June 30, 2010, deferred losses under the smoothing methodology exceeded deferred gains by \$1.236 billion. These deferred net losses will be amortized over the next four to six years.

Actuarial Summary (continued)

(Dollar Amounts Expressed in Millions)

As of June 30, 2010, SCERS' funding ratio was 87.0%, with the actuarial value of assets totaling \$6,217.0 million and the actuarial accrued liability totaling \$7,145.7 million. In general terms, this ratio means that as of June 30, 2010, SCERS has approximately 87 cents available for each dollar of anticipated future liability.

As of June 30	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded AAL	Funded Ratio
2010	\$6,217.0	\$7,145.7	\$928.7	87.0%
2009	5,730.2	6,662.0	931.8	86.0
