

APPLICATION FOR SUSPENSION OF RETIREMENT ALLOWANCE

I. GENERAL INFORMATION

Persons who receive a retirement allowance from the Sacramento County Employees' Retirement System (SCERS) for past employment cannot work for any SCERS employer on an indefinite or "permanent, regular" basis. However, persons who receive a service retirement allowance and are offered permanent, regular employment with the SCERS employer from which they retired may suspend their allowance by (1) completing this form, (2) providing documentation prepared by the employer of interest, and (3) submitting all materials to SCERS for review and action. Refer to scers.gov/post/suspension-retirement-allowance for more information.

III. REQUEST & ACKNOWLEDGMENT

I currently receive a service retirement allowance from SCERS and have been offered permanent, regular employment with the SCERS employer from which I retired. Because (a) I understand that I cannot receive a retirement allowance and engage in permanent, regular employment with a SCERS employer, and (b) I plan to accept a new offer of permanent, regular employment with my previous SCERS employer, I wish to suspend all benefits that I receive from SCERS and have this change effected in accordance with Government Code Section 31680.7 in particular and the County Employees Retirement Law of 1937 in general. In making this decision, I affirm that I have read the information referenced above and, consistent with the requirements established by SCERS, that I have provided written documentation of the offer of employment.
